

Specialized groups within our firm provide insightful design services for many entities that enhance the fabric and vitality of the community. The broad experience of our civic teams includes projects such as museums, airports, town halls, libraries, police stations, fire stations, detention centers, performing arts facilities, and public meeting venues. Each unique program is underpinned by research and thoughtful perspective on the challenges facing today's public bodies to allow cost-effective and innovative solutions to be developed through collaboration and decades of experience.
